Figure 1 shows various map symbols and their corresponding labels. The symbols are arranged in two columns. The left column includes: Highway (solid line), Secondary Road (dashed line), Jeep Trail/Walkway/Ferry (dashed line with cross-ticks), Railroad (line with cross-ticks), Military (blue dotted area), and Inset (gray shaded area). The right column includes: Pipe/Power Line (line with cross-ticks), Ridge/Physical Feature (line with cross-ticks), Stream/Shoreline (wavy line), Intermittent Stream (dashed wavy line), River (wavy line with 'R' and 'S' labels), Nonvisible Boundary (dotted line), and Out Area (white area with gray border).

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A * * * following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crew-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A * * * following a block number indicates that the block number is repeated elsewhere in the block.
